METAL FIRE EXTINGUISHER CABINETS LOCKABLE WITH BREAK GLASS KEY

PART # CME9A (9KG) & CME45A (2-4.5KG)

- **Two standard sizes available**
 - CME9A Suits 9kg extinguishers 710h x 320w x 220d
 - CME45A Suits 2 – 4.5kg extinguishers 570h x 280w x 220d
- **Built to last**
 - Constructed using 0.9mm zinc coated sheet metal to assist in preventing corrosion
 - Incorporated internal weather channel and internal drain hole prevents ingress of water and pooling
 - Full length LHS stainless-steel piano style hinge for increased lifespan
 - Pre-drilled mounting holes for rapid installation
 - Quality powder coated flame red finish with white lettering standard
- **Lockable with break glass panel**
 - Includes 003 lock with two keys as standard for convenience
 - Easily replaceable break glass panel makes maintenance easy
- **Polycarbonate viewing panel**
 - Durable and replaceable
 - Provides convenient visual reassurance that extinguisher is installed
- **Custom options available**
 - Custom sizes and custom designs available on request
 - Contact AWFS for full details on custom options

NOTE: For applications in harsh environments including marine areas those with high corrosive and chemical exposure we recommend the use of our polycarbonate range of cabinets. Please contact AWFS for cabinet suitability in harsh environments.
